OBJECTIVE

A motivated Computer Science Engineering graduate seeking an entry-level position where I can use my technical knowledge, learn new skills, gain practical experience, and contribute to the growth of the organization. Good and quick learner, team player, love to learn new things, flexible with different technologies.

Skills

- Technical Skills:
C++- Variables, IO manipulation, Arithmetic Operators, Bitwise Operators, Loops, Arrays, String, OOPs, Pointers, STL, Iterators, Stack, Queue, Multiset, Map etc.
Data Structures- Arrays, Searching, Sorting, Hashing etc.
- Behavioral Skills:
Leadership- Demonstrate initiative, responsibility, and the ability to coordinate tasks to achieve team goals.
Team Player- Work collaboratively with diverse teams, value different perspectives, and contribute to successful project outcomes.

Education

Bachelor of Technology (B.Tech.) in Computer Science and Engineering

College Name- VIT BHOPAL UNIVERSITY

Year of Graduation: 2026

Senior Secondary (Class XII)

School Name – DELHI PUBLIC SCHOOL, GWALIOR

Board - CBSE

Year of Passing: 2022

Percentage: 86.4%

Secondary (Class X)

School Name – DELHI PUBLIC SCHOOL, GWALIOR

Board - CBSE

Year of Passing: 2020

Percentage: 87.2%

TRAININGS OR CERTIFICATIONS

- IBM- Generative AI Fundamentals

Learned the basics of Generative AI, prompt engineering, AI tools, and responsible AI practices.

- IBM- Blockchain Fundamentals

Gained knowledge of blockchain technology, distributed ledgers, smart contracts, and real-world blockchain applications.

- Coursera- The Bits and Bytes of Computer Networking

Learned networking fundamentals, TCP/IP, DNS, DHCP, routing, switching, network security, and troubleshooting.

Projects

- Basic Chatbot using cpp
- Sudoku Solver
- Tic Tac Toe

INTERESTS, HOBBIES

- Badminton
Playing badminton to improve focus, fitness, teamwork, and strategic thinking.
- Photography
Photography, which helps me develop creativity, attention to detail, and observation skills.
- Continuous Learning
Passionate about learning new technologies, improving my programming skills, and exploring the latest trends in software development to stay updated with industry advancements.
